reduced estimated figures This would be impossible since the only thing that could happen if he did so would be cutting off the water supply to the City, since the allotted limited expenditure was exceeded The major portion of the reduction happened to come under power charges, alum, etc It was finally agreed that the President, City Municipal Council, Mysore, should arrange to pay up the actual expenditure for the previous years, including expenditure on the above items, while the President may take up the question of power charges separately with Government and obtain orders The Municipal President stated that as soon as Government Orders were passed and estimates received, sanctioned, he would arrange to make necessary payments

8) It was suggested to the President that, in future, the Sanitary Engineer should be requested to attend the meetings at which the annual maintenance estimates of the Jaya Vilas Water Works are considered and to explain the provisions made therein to the Municipal Council so that the trouble of cutting down the estimated figures without consultation may be avoided

9) The above notes are submitted for approval. The main file in the subject was sent to the Director of Public Health for furnishing his receipt - is awaited

10) Copies of the above notes will be sent to the President City Municipal Council and the Executive Engineer for information
